Mijanur Abedin Mirja

Backend developer

Purba Bardhaman, West Bengal, India | +91 8101005595 | mijanurabedinmirja123@gmail.com | github.com/MijanurAbedin

PROFESSIONAL SUMMARY

Backend Developer with hands-on expertise designing robust REST APIs, authentication/authorization workflows, and database-driven web applications using Node.js, Express.js, MongoDB, Mongoose, JWT, and bcrypt. Built and deployed scalable full-stack applications, notably Tixora (a modular concert-booking backend with seat availability validation, automated pricing calculation, Razorpay payment gateway integration, dynamic QR code ticket verification, and Socket.IO real-time updates). Proficient in Postman, Git/GitHub, MongoDB Atlas, and Render deployment; seeking an entry-level Backend Developer / Software Developer role.

EDUCATION

Sanaka Educational Trust's Group of Institutions (MAKAUT) 2022 – 2026

Bachelor of Technology — Computer Science & Engineering (SGPA: 7.17 [7th Sem], 7.40 [8th Sem]) Durgapur, WB

Relevant Coursework: Data Structures and Algorithms, Database Management Systems, Operating Systems, Computer Networks, Object-Oriented Programming, Software Engineering

Uchalan High School (WBCHSE) 2021

Higher Secondary (Class XII) — 70% Purba Bardhaman, WB

Jawahar Navodaya Vidyalaya, Durgapur (CBSE) 2019

Secondary (Class X) — 68% Durgapur, WB

PROJECT EXPERIENCE

Tixora — Concert Booking Backend | Node.js, Express.js, MongoDB, JWT, Razorpay, Socket.IO 2026

- Designed a modular REST API backend with domain-based controllers, routes, middleware, services, models, and reusable utilities.
- Implemented secure signup/login, bcrypt password hashing, JWT authentication, protected routes, and Role-Based Access Control (RBAC) for User, Organizer/Admin, and SuperAdmin.
- Built concert CRUD operations, organizer ownership, concert discovery, seat availability management, and protected update/delete operations.
- Implemented booking creation, seat validation, automatic total-price calculation, booking history lookup, and cancellation with seat restoration.
- Added Razorpay payment workflow, payment verification/status handling, ticket generation, unique ticket IDs, and QR-code generation.
- Integrated Socket.IO, Nodemailer email service, and Multer file upload support; built SuperAdmin APIs and tested the workflow using Postman.

Secret Diary App | Node.js, Express.js, MongoDB Atlas, EJS, JWT, Multer, Render Deployed

[Live Link]

- Built a secure full-stack diary application with JWT authentication, authorization, and RESTful CRUD operations.
- Integrated Multer for image/file uploads, MongoDB Atlas for persistent cloud storage, and deployed live on Render.
- Implemented protected routes and EJS server-side views for diary entry create, read, update, and delete workflows.

Task Management (To-Do) Web Application | Node.js, Express.js, MongoDB, EJS, RenderDeployed

[Live Link]

- Built full CRUD task management with MongoDB persistence, Express routing, and EJS server-side views.
- Integrated schema validation, error-handling middleware, and MongoDB Atlas; deployed live on Render.
- Designed Mongoose task data models and server-side routes for create, update, complete, and delete operations.

Telemedicine Platform — College Project | Node.js, Express.js, MongoDB College Project

- Collaborated on backend architecture, routing, authentication logic, database integration, and end-to-end application data flow.
- Contributed REST API endpoints and MongoDB data modeling supporting authentication and application data flow across the platform.

SKILLS

- Node.js & Express.js
- REST API Development
- Server-Side Routing
- Middleware Architecture
- CRUD Operations
- Role-Based Access (RBAC)
- Error-Handling Middleware
- MongoDB & Mongoose
- MongoDB Atlas (Cloud)
- Database Schema Design
- Data Modeling
- JWT Authentication
- bcrypt Password Hashing
- EJS Server-Side Rendering
- JavaScript (ES6+
- Socket.IO (WebSockets)
- Razorpay Payment API
- QR Code Generation
- Postman API Testing
- Git & GitHub Version Control
- Multer File Uploads

TOOLS, PLATFORMS & LANGUAGES

Tools & Platforms: Git, GitHub, Postman, VS Code, npm, Render, MongoDB Compass, MongoDB Atlas

Languages: English (Professional), **Bengali** (Native), **Hindi** (Conversational)
